FOLDABLE DELIVERY TRAY COMES INCLUDED

PAPER FEED

The iBooklet has automatic and manual mode. In automatic mode, the feeding sensor detects sheets fed and staples/folds automatically. In manual mode, it staples and folds sheets when the START button is pushed.
CONTROL PANEL

The iBooklet has an icon control panel with a built in LCD counter, making it intuitive and versatile with ease of operation.

CLINCHER

The iBooklet has a patent-pending stapling mechanism which enables it to select ordinary clinch and flat clinch.

HEAVY DUTY STAPLERS

The iBOOKLET has specially made heavy duty stapler heads that can staple up to 16 sheets with fewer jams and errors.

EASY STAPLE LOADING

Reloading staples into a stapler magazine is quick and easy. Simply open the cover, pull the magazine, lift the plate and place staples.

SETTING WITHOUT ANY TOOLS

The iBOOKLET requires no tools to change staple head locations. Stapler head locations can be chosen from 5 slots.

*May vary due to variations in paper and power supply

The iBooklet is a tabletop bookletmaker that automates stapling and folding.

Produce professionally finished booklets with easy operation, within a few seconds.

At 800 sets of booklets produced per hour, the iBooklet has the fastest production speed in its class.

The iBooklet has a built in LCD counter that clearly shows job progress and settings. In case of an error, the icon based control panel indicates what has happened (such as a paper jam or an empty staple magazine) which makes it easy to diagnose and resolve issues. It automatically adjusts stapling and folding position according to the selected paper size. The iBooklet has standard paper size buttons such as letter, legal, ledger, etc. adding to the ease of use. Custom paper length is programed by pushing the FREE button, and the +/- buttons.

This bookletmaker has automatic and manual cycle modes. In automatic mode, the sensor detects sheets inserted, then staples and folds automatically. In manual mode, it staples / folds sheets when the START button is pushed. Count mode is selectable from addition and subtraction mode. After finishing a booklet, increase / decrease the number according to selected count mode.

The iBooklet has a patent-pending stapling mechanism, which enables it to select ordinary clinch and flat clinch. Flat clincher makes booklets and documents beautifully finished and saves space. Thanks to its sophisticated design and small footprint, the iBooklet fits perfectly in any space such as offices, small businesses, schools, churches, copy shops and print shops.
